Stora Enso's obligations under REACH are as a manufacturer of articles and substances and as a downstream user.

Where REACH demands registration we have done or will do the registration. Our paper and board grades are defined as articles without intended release with the consequence that no registration is required. Cellulose pulp is defined as a substance and exempted from registration according to annex IV.

We have included REACH demands in our purchasing agreements to secure information exchange in the supply chain. Our chemical suppliers shall continuously follow the development of the Candidate List, the substances for authorization as well as any restrictions applicable to our use. To our knowledge and based on the information from our suppliers today none of our articles contain:

- Substances included in Annex XIV, Authorisation.
- Substances included in Annex XVII, Restrictions
- Substances included on the Candidate List in a concentration above 0.1% (w/w).
